

docSTAR SPX & Enterprise Turnkey Solution System

The **SPX & Enterprise Turnkey Solutions** include a premium server and supports up to 100 users (inquire about larger applications), including many ScanStations. They include a bootable internal SATA RAID1 array and can include an optional added SATA RAID5 array for high performance/high capacity internal storage.

SPX includes basic document scanning and retrieval functions whereas Enterprise adds Access Management, Audit Trail, Advanced Templates with OCR, Attaché and Native File Management modules.

Description	Specification
Max Users	100+ (inquire about greater requirements)
Recommended Maximum Scan/Import Volume	200,000 pages per month when DVD-RAM is used; 500,000 when using only magnetic storage.
Database	Microsoft SQL Server 2005 Workgroup Edition (CALs are not included)
CPUs	Dual Intel Quad Core Xeon 2.0 GHz
RAM	4 GB DDR2 registered ECC
OS	Windows Server 2003 R2
Network Interface	Gigabit Ethernet
Two Tier Storage	320GB (240 GB available for documents) internal RAID-1 <i>or</i> RAID-1 +640GB internal RAID5 (640GB available for documents) with hot spare.
Chassis	The standard tower is convertible to a rack-mounted chassis (rack-mount rails are included)
